Problem Statement:

Problem 1

I am Owner	I'm trying to reduce the cost process	But sometimes the detector shows less damage	Because many inner damages occurs	Which makes me feel hopelessness
----------------------	--	---	--------------------------------------	--

Problem 2

I am Insurer	I'm trying to give efficient amount	But if it shows less damage	Because the detector shows less damage	Which makes me feel indecision
------------------------	--	--------------------------------	---	--

Problem 3

I am Public	I'm trying to get good settlement for damage	But sometimes it didn't detects some damage	Because didn't detects some internal damages	Which makes me feel disappointment
-----------------------	---	--	---	--

Problem 4

I am Buyer	I'm trying to buy vehicle in good condition	But some owners hide the damages	Because to get profit from the damaged car	Which makes me feel implausible
----------------------	--	-------------------------------------	---	---

Problem 5

I am Worker	I'm trying to get the vehicle in good condition when customer returns	But But they did not mention the damages occurred	Because to avoid paying penalty to company	Which makes me feel snotty
-----------------------	--	--	---	--------------------------------------
